

Decorate-a-Bauble Drawing Game

Maths involved: Shapes; Patterns

In this non-competitive drawing game, children can explore shapes and patterns.

Step 1: Download the Bauble template from our website and print off one copy per child/ player.

Step 2: Cover up the sides of an existing die you have with some paper, and draw a different shape or pattern on to each side.

Step 3: The children/ players take it in turn to roll the die and add the shape or pattern they have rolled to their bauble. For an added challenge, you could try creating repeating or symmetrical patterns.

Keep playing until you are happy with the design of your bauble (or until you run out of space).
