

(More) Christmas Number Doodles

Maths involved: Number recognition

For our final Christmas Countdown activity, let's have some fun with number doodles! This was a really popular activity last year, so we've come up with another round of new doodles.

All you need is paper and pens. Sketch out the numbers 1 to 9 and get creative – what can you turn the numbers in to? Follow our ideas as a guide, or come up with your own.

Afterwards, you can colour in your number doodles.

Taking it further:

- Check out our first Christmas Number Doodles video from last year at <https://bit.ly/MWSChristmasDoodles>
- Go beyond number 9, and challenge yourself to come up with doodles for other numbers.
